

**Avalanche
Studios Group**

Avalanche Studios Group - Backend Code Challenge

The assignment will be found within the 7z file under docs/ index.html.

Your thought process as you progress towards your solution is as important as the actual final result so please complement your solution with:

- a description of the steps taken
- a motivation behind your design choices
- and what you see as the next step if you would continue to refine the result

Place this description where it is easy to find.

When you are done with the challenge, please zip it with 7-zip before uploading it on your SharePoint folder and label it with your name.

Download link to 7-zip: <http://www.7-zip.org/download.html>

Please let us know if you have any questions.

Deadline: 2 weeks

Best of luck!
